Aqueous Gloss Media

QM-PLMP10: Professional luster microporous RC photo paper

PLMP10 has a heavy luster finish making this professional grade photo paper perfect for wedding and portrait photography. Bright white point along with a resin coating allows for high resolution, wide color gamut, and fast dry times.

Benefits:

- True Resin Top Coating
- Luster Finish
- Wide Color Gamut
- Fast Dry Times

Applications:

- Gallery Photo Printing
- Wedding and Portraiture
- High End Posters
- POP Displays

This media is designed for digital printing applications using OEM printers with their accompanying OEM ink sets. Although designed for all printers using the aforementioned OEM matching ink sets; actual results may vary depending on printer model, age, print design, environmental conditions, and other factors. Exposure of a print to atmospheric pollutants, or to temperature, humidity, and / or lighting extremes can result in fading, color shifting, or other visual changes. The ideal conditions for printing and storage are a temperature of 70°F ±5°F and relative humidity of 50% RH ±3% RH. Our wide format media is guaranteed against manufacturing flaws and defects and is designed to resist printer jams when used properly. Storage: Up to one year if stored in proper conditions (cool, dry place 50-80°)
